*Note 1: The number of below proficient students who met their growth increment are added to the number of students proficient/advanced in the numerator of the percent proficient calculation for the growth step for AYP.

**Note 2: The lower bound of a confidence interval is applied to the Status Percent Proficient/Advanced. The confidence interval is not applied to the Growth Percent Proficient/Advanced. In rare cases schools will meet AMO with status and not meet AMO with growth due to the application of the confidence interval.

***Note 3: For schools with grades 4-8 students NA indicates that no students that were below proficient met growth. For schools with grades 9-12 students NA indicates that the growth model does not apply to these grade levels.
